

Catholic Communications Internet & Design Services

• CC Host

Catholic Communications can offer you full-service for all your Internet and Design requirements. Having compared what is on offer in the marketplace, **CC Host** is probably the best-value web-hosting available in Australia. **CC Host** is still available for all Catholic Church agencies, parishes, schools and religious institutes or approved organisations within the Archdiocese of Sydney. This package is also available for other Church clients.

The simple **CC Host** pricing structure (as of September 2007):

- \$60 once-only set-up fee (only payable by new clients)
- \$200 per year for web-hosting per domain

CathComm offers **200Mb** of website space and unlimited mailboxes, as well as full control panel access at an additional \$5 per month. If you prefer that CathComm continues to fully manage your website, we can also do this, charging you for any changes that you require at our low hourly rate (currently \$80 per hour, charged in 15-minute increments – minimum charge of \$20).

Features of CC Host Package:

- Unlimited space and mailboxes¹
- No traffic fees¹
- Free spam and virus filtering
- Control Panel access to your account
- Windows 2003 or Linux web hosting
- Web-based email
- 24/7 FTP access
- Full Microsoft FrontPage support
- ASP, ASP.NET, PHP, CGI, Perl, MySQL, SSL
- Email auto-responders
- Full website statistics

The Control Panel has been designed to put you in total control of your Internet services in real time. This means you can:

- Add mailboxes and assign email addresses
- Create auto-response email messages when on holiday
- Restrict access to folders with passwords
- Create FTP users and assign folders and space quotas
- Add MySQL databases and manage them
- Browse your folders and set permissions and ownership

• CC Domain Names

Catholic Communications can also manage all of your domain name requirements. We can register a new domain name or renew / transfer your existing domain name. Domain names have never been cheaper, and it makes sense to register domains that either capture the name of your particular agency or ministry, or the name of one of the activities that you undertake. For example, in addition to the main domain **sydney.catholic.org.au**, we have registered a number of domains for particular events and services that we provide, like **aquietplace.info**, **catholicadminconf.info** and **sydarch.org.au** for our Intranet. Prices are as follows (many commercial companies charge up to 4 times these prices and in some cases, 28 times as much):

domain name type	2007 prices
.org.au	\$7.00 p.a.
.asn.au	\$17.00 p.a.
.com.au/.net.au (other names ending in .au)	\$21.00 p.a.
.org/.com/.net (names not ending in .au)	\$15.00 p.a.

¹ Subject to fair-use policy. All prices subject to annual review.

• CC Design & Management

Catholic Communications has considerable experience and expertise in designing and maintaining websites. In addition to all your paper-based design needs, we can also create and design for you an attractive and functional website that will complement your existing image and design – or we can work together to create a new look and feel for all of your communications – both printed and electronic. We can also build a comprehensive *Content Management System* to automatically manage the information presented on your website. Our hourly rates are very competitive, and are well below the industry standard. We can meet with you to discuss your needs and requirements and provide a comprehensive and highly competitive quotation specifically tailored to your exact specifications. We can also maintain and manage your website on an on-going basis.

As a Church-funded Catholic agency, Catholic Communications understands the nature of your mission – and the reality of operating within a tight budget.

• CC Clients
